Original references and preparation proofs

Left: untouched approved raster references. Right: in-review alpha preparation, not vector redraws.

badge

monogram

lockup-horizontal

Dark lockup fails: black lettering vanishes; cream panel/fringe requires manual cleanup.

Lettering, geometry and small-size tests

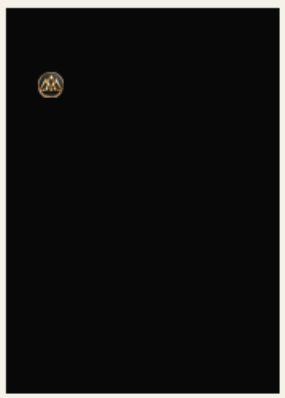

Pixel detail is preserved; production geometry and exact wordmark construction remain unresolved.

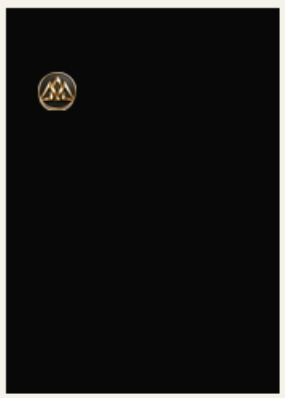

Enlarged wordmark pixels / no live type source

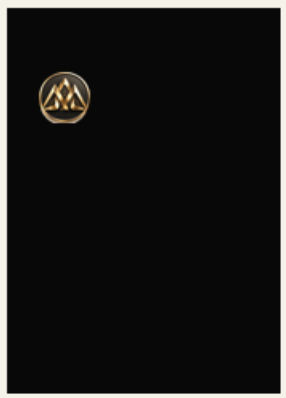

Enlarged nodes / clean path redraw required

Awaiting review / in progress

Illustrative records only

Recommended now: light-ground hero, cover and presentation use within native raster limits.

Review next: cutout edges, flat vector geometry, dark wordmark and compact symbol.

No final one-color, stacked, font license, CMYK, Pantone or manufacturing proof supplied.

Every derivative remains in_review; approved originals have inherited documentary evidence.
